INDEX TO VOLUME 40

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews and Society Transactions are indexed under these headings in their alphabetical order under the letters B and S, respectively.

Abnormalities and Deformities: See under names of organs and regions, as Aorta; Nose; etc.
Abscess: See under names of organs and regions, as Brain; Cerebellum; Cranium; Lungs; etc.
  Epidural: See under Spine
  Extradural: See Cranium, abscess
Acid, Ascorbic: See Ascorbic Acid
  Nicotinic: See Nicotinic Acid
Adamantinoma of maxillary sinus, *61
Adenoids and tonsils, *409
  radium treatment of granular or hypertrophied lateral pharyngeal tonsillar bands, 326
  so-called crypt system of human pharyngeal tonsil; study of its development, adult structure and relations, 155
Adenoma, bronchial, *220
  bronchial, with metastasis, *487
Aeronautics: See Aviation and Aviators
Age, Old: See Old Age
Air; air-borne cross-infection in case of common cold; further clinical study of use of glycol vapors for air sterilization, 152
  pressure; aviation deafness, *468
  pressure; reduced atmospheric pressure as form of treatment for paranasal sinusitis, *266, 517
  pressure; use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aero-otitis), *402
Air Passages: See Respiratory Tract
Airplane: See Aviation and Aviators
Airsickness: See Aviation and Aviators
Alciatus, epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
Allergy: See Anaphylaxis and Allergy
Altmann, F.: Labyrinthitis due to Pneumococcus type III; histopathologic studies, *75
American Medical Association, Scientific Exhibit, 512
Amygdalectomy: See Tonsillectomy
Anaphylaxis and Allergy: See also Asthma; etc.
  allergic sinus, *324
  significance of eosinophilia in rhinology, 416
Anesthesia, local, for gastroscopy, *224
  modern view of neuralgia referable to Meckel's ganglion; report of cases showing relief of pain and sometimes arrest of development of ulcers of cornea by cocainization of ganglion, *29
  sulfonamide inhibiting action of procaine, 64
Anesthetics: See Anesthesia
Angina: See also Throat; Tonsils
  Ludwig's, diagnosis and treatment (relation to dental conditions), 415
  Vincent's: See Fusospirochetosis
Anomalies: See under names of organs and regions, as Aorta; Nose; etc.
Antrum: See Maxillary Sinus
Aorta, abnormalities; constricting double aortic arch, *211
Apparatus: See also Instruments
  physical characteristics of some bone oscillators used with commercially available audiometers, *282
Arey, L. B.: So-called crypt system of human pharyngeal tonsil; study of its development, adult structure and relations, 155
Armed Forces Personnel: See also Aviation and Aviators; Military Medicine; etc.
  Army plan for rehabilitation of deafened soldiers, 423
  Army rehabilitation program for blind and deafened, 511
Arteries: See Aorta; Thrombosis; Vasomotor System; etc.
Arthritis and sinusitis, *307
Ascorbic Acid, vitamin C-sulfonamide compounds in healing of wounds; use of sulfanilamide ascorbate in treatment of chronic suppuration of wound after radical mastoidectomy, *115
Aspergillosis, pulmonary, *216
Asthma: See also Anaphylaxis and Allergy
  bronchial, *211
Atelectasis: See Lungs, collapse
Atkinson, M.: Ménière's syndrome; results of treatment with nicotinic acid in vasoconstrictor group, *101
Atmosphere: See Air
Audiogram: See Hearing, tests
Audiometer: See Hearing, tests
Audition: See Hearing
Auditory Organ: See Ear
Aviation and Aviators, aerosinusitis, *324
  aviation deafness, *468
  traumatic deafness in combat flyers, *374
  use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aero-otitis), *402

Bacilli: See Bacteria
Bacteremia: See Streptococci
Bacteria: See also Pneumococci; Streptococci; etc.
  Haemophilis influenzae type B laryngitis with bacteremia (value of tracheotomy), 510
  use of crude penicillin in media for isolation of Haemophilis influenzae from laryngeal cultures in obstructive laryngitis, 328
Ballenger, H. C.: Local use of powdered sulfathiazole in acute nasopharyngitis (common cold), 518
Ballenger, J. J.: Three cases of orbital cellulitis, 421
Barotrauma: See Air, pressure
Barry, W. B.: Thrombosis of cavernous sinus, *299
Basilar Membrane: See Labyrinth
Behavior, Children's: See under Children
Bell's Paralysis: See Paralysis, facial
Biotherapy and chemotherapy; their relation to prevention and treatment of diseases of ear, nose and throat, *17, 230
  symposium on chemotherapy and biotherapy in otolaryngology, 229
Blindness, Army rehabilitation program for blind and deafened, 511
Bogdasarian, R. M.: Neurinoma of facial nerve, *291
Bolotow, N. A.: Surgical treatment of nasal obstruction; indications for plastic approach to septal deformity; details of plastic procedures, *198
Bones: See under names of bones
  Conduction: See under Hearing
  Diseases: See Osteomyelitis

Book Reviews:
  Art of Anaesthesia; P. J. Flagg, 431
  Minor Surgery; edited by H. Rolleston and A. Moncrieff, 73
  Neurology of Eye, Ear, Nose and Throat; E. A. Spiegel and I. Sommer, 521
  Otitic Perilymphatic Spaces (Otitic Labyrinth); M. Rius with preface by J. M. Tato, 149
  Speech Reading—Jena Method: Textbook with Lesson Plans in Full Development for Hard-of-Hearing Adults and Discussion of Adaptations for Deaf and Hard-of-Hearing Children; A. M. Bunger, 431
  Trials and Triumphs of Surgeon and Other Literary Gems; J. C. DaCosta; edited by F. E. Keller, 521
  Tuberculosis of Ear, Nose and Throat, Including Larynx, Trachea and Bronchi; M. C. Myerson, 73

Brain: See also Cerebellum; Meninges; etc.
  abscess, and meningitis, *508
  abscess, and otitis media, *384
  Diseases: See Encephalitis
  mechanisms of ocular movement in man; influence of vestibular apparatus, *457

Brandenburg, N. B.: Muscular variation of pharyngoesophageal segment, 153
Britt, E. C.: Rhinosporidiosis, *203
Bronchi, adenoma, *220
adenoma with metastasis, *487
anatomy of tracheobronchial tree, *210
carcinoma, *218
Diseases: See Bronchiectasis
diverticulum of, *211
prebronchoscopic sedation, *210
stenosis, *212
tuberculous tracheobronchitis, *216
Bronchiectasis, *213
sulfonamide compounds in therapy, *215
Bronchoscopy in dealing with poison gas, *213
in newborn infant, 227
Bronchospirometry: See under Respiration
Brooklyn Cancer Institute, carcinoma of larynx; review of treatment and end results at Brooklyn Cancer Institute, *133
Brunner, H.: Present status of diagnosis and management of Ménière's syndrome, *38
Butler, D. B.: Reduced atmospheric pressure as form of treatment for paranasal sinusitis, *266, 517

Caloric Test: See Labyrinth
Cancer: See under names of organs and regions, as Bronchi; Epiglottis; Esophagus; Larynx; Lungs; Maxillary Sinus; Sinuses, Nasal; Trachea; etc.
Carotid Canal: See Temporal Bone
Case, T. J.: Mechanisms of ocular movement in man; influence of vestibular apparatus, *457
Catarrh: See under Otitis Media; Respiratory Tract; etc.
Cavernous Sinus Thrombosis: See Thrombosis
Cellulitis: See Orbit
Cerebellum, abscess; chronic suppurative otitis media and cerebellar abscess on left side, 419
Cerebrospinal Fever: See Meningitis
Cerebrospinal Fluid, meningitis due to post-traumatic cerebrospinal rhinorrhea, *206
Cevitamic Acid: See Ascorbic Acid
Chemotherapy, 229. See also Sulfonamides
and biotherapy; their relation to prevention and treatment of diseases of ear, nose and throat, *17, 230
symposium on chemotherapy and biotherapy in otolaryngology, 229
Children, acute laryngotracheobronchitis in, 327
chronic extradural abscess; its effect on behavior, *501
diagnosis and treatment of sinusitis, 227
sinusitis in, *304
Choanae: See Nose
Chondroma of larynx; review of literature and report of 2 cases, 63
Cilia, effects of certain drugs on ciliary activity of mucous membrane of upper respiratory tract, 512
Clerf, L. H.: Peroral endoscopy, *210
Preepiglottic space; its relation to carcinoma of epiglottis, *177
Clift, M. W.: New nasopharyngeal radium applicator, *208
Climate and disease, 65
Clinics; hearing aid clinic, 326
Cocaine: See Anesthesia
Cochlea: See Hearing; Labyrinth
Colds: See Respiratory Tract, diseases
Communicable Diseases: See Meningitis; Syphilis; etc.
Conley, J. J.: Reconstruction of frontal bone with tantalum implant, following removal of osteoma, 67
Removal of frontal osteoma and correction of defect with tantalum implant, *295
Cornea, modern view of neuralgia referable to Meckel's ganglion; report of cases showing relief of pain and sometimes arrest of development of ulcers of cornea by cocainization of ganglion, *29
Corti's Organ: See Labyrinth
Coryza: See Rhinitis
Cranium: See also Frontal Bone; Temporal Bone; etc.
abscess; chronic extradural abscess in children; its effect on behavior, *501
intracranial involvement of nasal sinuses, *306
intracranial suppuration secondary to disease of nasal septum; survey of literature; report of cases and animal experiments, *1
Crico-Arytenoid Joints: See under Larynx
Cunning, D. S.: Chemotherapy, 229
Cutler, M. H.: Hereditary hemorrhagic telangiectasia, 428
Cystadenoma of larynx; report of 4 cases, *445
Cysts: See under names of organs and regions, as Jaws; Larynx; Maxillary Sinus; etc.

Deafness: See also Hearing; Otitis Media; Otosclerosis
aging ear, *475
Army rehabilitation program for blind and deafened, 511
Army's plan for rehabilitation of deafened soldiers, 423
aviation deafness, *468
bilateral acoustic neuritis; review of literature and report of case, *261
effect of head injury on hearing, 510
hearing aid clinic, 326
prevention and treatment of acoustic trauma, 326
second study in affective value of speech sounds, 415
symposium on rehabilitation of deaf and hard of hearing; civilian point of view, 422
Tests: See Hearing, tests
traumatic, in combat flyers, *374
traumatic, prevention; further studies, *52
Deglutition, lesions of esophagus in generalized progressive scleroderma, 416
Dentition: See Teeth
Diamond, E. H.: Chronic suppurative maxillary sinusitis treated locally with penicillin by new method, *406
Diathermy: See under names of diseases, organs and regions
Diphtheria, prophylactic vaccination, *17
Directory of Medical Specialists, 73, 328, 430
of otolaryngologic societies, 74, 156, 232, 332, 432, 522
Diverticula: See under Bronchi
Drowning; resuscitation of drowned today, 65
Dysacusis: See Deafness
Dysart, B. R.: Modern view of neuralgia referable to Meckel's ganglion; report of cases showing relief of pain and sometimes arrest of development of ulcers of cornea by cocainization of ganglion, *29
Otitis media and complications, *504
Dysphagia: See Deglutition

Ear: See also Deafness; Hearing; Otorhinolaryngology; and under names of special structures, i.e., Labyrinth; Mastoid; etc.
aging, *475
Diseases: See Meningitis; Otitis Media; etc.
epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
Internal: See Labyrinth
mechanisms of ocular movement in man; influence of vestibular apparatus, *457
Middle: See Otitis Media; Vertigo, Aural
moniliasis of external ear canal, 150
radiation of, 510
treatment of external otitis; local sulfonamide therapy, 415
Eisenstodt, L. W.: Surgical treatment of atrophic rhinitis, *451
Electrocoagulation: See under names of diseases, organs and regions
Embolism: See Thrombosis
Emphysema, mediastinal, and pneumothorax following tracheotomy, 327
Encephalitis, otitic, *384
Endoscopy, peroral, *210
Eosinophils, significance of eosinophilia in rhinology, 416
Epidural Abscess: See under Spine
Epiglottis, preepiglottic space; its relation to carcinoma of epiglottis, *177
total laryngectomy; simplified technics with use of special clamp which makes possible removal of larynx and preepiglottic space without opening pharynx, *275
Epiphora: See Lacrimal Organs
Epistaxis: See Nose, hemorrhage
Equilibrium: See Cerebellum; Labyrinth; Nystagmus; Reflex; etc.
Esophagus: See also Deglutition
carcinoma, 151
diseases; lesions of esophagus in generalized progressive scleroderma, 416

Esophagus—Continued
esophagopharynx; special area of human pharynx, 510
esophagoscopy, *221
muscular variation of pharyngoesophageal segment, 153
peptic ulcer of, *222
scleroderma of, *223
self-inflicted division of larynx and thyroid and division of trachea and esophagus, with recovery, 226
tumors of, *148
Eustachius, epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
Extradural Abscess: See Cranium, abscess
Eyes: See also Orbit
mechanisms of ocular movement in man; influence of vestibular apparatus, *457
oculo-orbital involvement of sinuses, *305

Face, instrument for anchoring fractures of bones of head, *503
Paralysis: See Paralysis, facial
Fenton, R. A.: Traumatism of frontal sinuses, *157
Ferguson, G. B.: Hemangioma of adult and of infant larynx; review of literature and report of 2 cases, *189
Fibroma, ossifying, of superior maxilla, *180
Figi, F. A.: Cystadenoma of larynx; report of 4 cases, *445
Primary tumors of Stensen's and Wharton's ducts, *175
Fisher, G. E.: Cancer of trachea; report of 5 cases, *49
Fistula, alveolar, management of, *167
Flinn, C. B.: Rhinosporidiosis, *203
Foreign Bodies in air and food passages, *220
unusual, of larynx, *60
Foss, E. L.: Tumors of nose and throat, *142
Fowler, E. P.: Aging ear, *475
Fowler, E. P., Jr.: Use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aero-otitis), *402
Fox, J. R.: Peroral endoscopy, *210
Fractures: See Head; Nose; Temporal Bone; Zygoma; etc.
Frontal Bone, acute and chronic osteomyelitis of, 420
clinical conditions arising from alterations of sphenoid sinus and frontal bone, *322
reconstruction with tantalum implant, following removal of osteoma, 67
removal of frontal osteoma and correction of defect with tantalum implant, *295
spreading osteomyelitis of frontal bone treated with penicillin, 227
Frontal Sinus: See also Sinuses, Nasal
otolaryngologic aspect of frontal meningocele: report of cases, *171
traumatism of, *157
two cases of osteomyelitis treated with penicillin; case 1, frontal; case 2, maxillary, 327
Fusospirochetosis, pseudomembranous angina followed by partial pharyngeal paralysis, *164

Galante, M. E.: Epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
Galloway, T. C.: Laryngeal management of bulbar poliomyelitis, 154
Galvanic Test: See Labyrinth
Ganglion, Sphenopalatine: See Meckel's Ganglion
Gas, poisoning; bronchoscopy in dealing with poison gas, *213
Gastric Ulcer: See Peptic Ulcer
Gastritis: See under Stomach
Gastroscopy: See Stomach
Glatt, M. A.: Xanthomatosis; lipoid granulomatosis of temporal bone, 519
Gradenigo Syndrome: See Otitis Media
Gramicidin; penicillin, tyrothricin and patulin therapy, *25
Granuloma; xanthomatosis; lipoid granulomatosis of temporal bone, 519
Graves, G. O.: Epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
Greenwood, G. J.: Reduced atmospheric pressure as form of treatment for paranasal sinusitis, *266, 517
Grip: See Influenza
Grossman, F. M.: Physical characteristics of some bone oscillators used with commercially available audiometers, *282
Gum, prevention of secondary post-tonsillectomy hemorrhage with sulfathiazole gum, *196

Hara, H. J.: Ossifying fibroma of superior maxilla, *180
Havens, F. Z.: Malignant tumors of nasal cavity, report of 8 cases in which frontoethmoid approach was employed, *396
Hay Fever: See Anaphylaxis and Allergy
Head: See also Cranium
injury; effect on hearing, 510
instrument for anchoring fractures of bones of, *503
Health Resorts, climate and disease, 65
inhalation therapy using mineral waters and medicated oils, 512
Hearing: See also Deafness
Aids: See under Deafness
Conservation: See under Deafness
development of organ of Corti in relation to inception of, *233
effect of head injury on, 510
effects of acoustic trauma in industry and war, 150
effects of noise and concussion on, 326
tests; physical characteristics of some bone oscillators used with commercially available audiometers, *282
Heart, cardiovascular and metabolic study of stutterers and non-stutterers, 228
Heine-Medin Disease: See Poliomyelitis
Hemangioma of adult and of infant larynx; review of literature and report of 2 cases, *189
Hemophilia, severe sublingual and paratracheal hemorrhage in hemophilia with recovery following tracheotomy, 326
Hemorrhage: See Hemophilia; Nose; Tonsillectomy; etc.
Heparin: See Thrombosis
Hernia, hiatal, *223
High, I. B.: Suture of tonsillar pillars as prevention of hemorrhage in local and general tonsillectomies, 67
Hill, F. T.: Management of alveolar fistula, *167
Histoplasmosis, *216
Hodgkin's Disease, *220
Holinger, P. H.: Post-thyroidectomy bilateral laryngeal paralysis complicated by myxedema and hypoparathyroidism, 427
Hollender, A. R.: Histopathology of nasal mucosa of older persons, *92
Horton, B. P.: Medical point of view in Ménière's syndrome, 330
Howes, W. E.: Carcinoma of larynx; review of treatment and end results at Brooklyn Cancer Institute, *133
Hydrotherapy, inhalation therapy using mineral waters and medicated oils, 512
Hypoparathyroidism: See Parathyroid
Hypopharynx: See Larynx

Illustrations, fractures of temporal bone, *333
Industry, effects on hearing of acoustic trauma in industry and war, 150
prevention and treatment of acoustic trauma, 326
prevention of traumatic deafness; further studies, *52
Infantile Paralysis: See Poliomyelitis
Infants: See also Children
newborn, bronchoscopy in, 227
newborn, oral moniliasis in, 511
Infection: See Wounds; and under names of bacteria, as Streptococci; etc.
Influenza, Bacilli: See under Bacteria
prophylactic vaccination, *19
Inhalation therapy using mineral waters and medicated oils, 512
Injuries: See under names of organs and regions, as Face; Head; etc.
Instruments: See also Apparatus
for anchoring fractures of bones of head, *503
modification of blade of LaForce tonsillectome, *59
new nasopharyngeal radium applicator, *208

Ivy, A. C.: Reduced atmospheric pressure as form of treatment for paranasal sinusitis, *266, 517

Jaws, case showing partial deficient fusion of maxillary process with lateral nasal process on 1 side, 228
fissural cysts, *288
management of alveolar fistula, *167
orbital cellulitis in baby caused by acute osteomyelitis of maxilla, 416
ossifying fibroma of superior maxilla, *180
Johnson, M. R.: Bilateral acoustic neuritis; review of literature and report of case, *261
Judge, A. F.: Unusual foreign body of larynx, *60

Kelemen, G.: Fractures of temporal bone, *333
Keller, F. E.: Modification of blade of LaForce tonsillectome, *59
Koebbe, E. E.: Complications of otitis media and their treatment, *382
Kolmer, J. A.: Chemotherapy and biotherapy; their relation to prevention and treatment of diseases of ear, nose and throat, *17, 230
Kubik, C. S.: Acute otitis media with epidural abscess and meningitis, 418

Labyrinth: See also Nystagmus; Reflex; Vertigo, Aural; etc.
acute otogenous labyrinthitis and meningitis, 415
development of organ of Corti in relation to inception of hearing, *233
labyrinthitis due to Pneumococcus type III; histopathologic studies, *75
suppurative labyrinthitis, *384
vertical nystagmus produced by peripheral labyrinthine lesions, *160, 513
Labyrinthitis: See under Labyrinth
Lacrimal Organs, epiphora of nasal origin; simple method of treatment, *494
Laff, H. I.: Bronchial adenoma with metastasis, *487
LaForce tonsillectome, modification of blade of, *59
Larsell, J. F.: Development of organ of Corti in relation to inception of hearing, *233
Larsell, O.: Development of organ of Corti in relation to inception of hearing, *233
Laryngectomy: See under Larynx
Laryngitis: See under Larynx
Laryngology: See Otorhinolaryngology
Laryngotracheobronchitis: See Respiratory Tract, diseases
Larynx, acute streptococcic laryngitis, 63
cancer, 151
cancer, concentration radiotherapy; study of 413 cases, 151
carcinoma; review of treatment and end results at Brooklyn Cancer Institute, *133
chondroma; review of literature and report of 2 cases, 63
congenital stridor, *211
cyst, congenital, 416
cystadenoma; report of 4 cases, *445
development of esophageal speech after laryngectomy, 151
foreign body, unusual, *60
Haemophilus influenzae type B laryngitis with bacteremia (value of tracheotomy), 510
hemangioma of adult and of infant larynx; review of literature and report of 2 cases, *189
laryngeal management of bulbar poliomyelitis, 154
paralysis; post-thyroidectomy bilateral laryngeal paralysis complicated by myxedema and hypoparathyroidism, 427
preepiglottic space; its relation to carcinoma of epiglottis, *177
self-inflicted division of larynx and thyroid and division of trachea and esophagus, with recovery, 226
suffocating laryngitis, 416
total laryngectomy; simplified technics with use of special clamp which makes possible removal of larynx and preepiglottic space without opening pharynx, *275
tumors, *144
tumors of oropharynx and hypopharynx, *144
use of crude penicillin in media for isolation of Haemophilis influenzae from laryngeal cultures in obstructive laryngitis, 328
Lateral Sinus, Thrombosis: See Thrombosis
Lindsay, J. R.: Otolaryngologic point of view in Ménière's syndrome, 329
Lip Reading: See under Deafness
Lipoids, Pneumonia: See Pneumonia
xanthomatosis; lipoid granulomatosis of temporal bone, 519
Lips, tumors of lips and mouth, *143
Lungs: See also Bronchi; Respiration; Respiratory Tract; Thorax; etc.
abscess, *213
cancer; x-ray diagnosis of bronchogenic carcinoma, 63
collapse; atelectasis, *212
pulmonary aspergillosis, *216
pulmonary complications of sinusitis, *308
Luongo, R. A.: Typical rhinoplastic operation, 68
Lymphangitis of retropharyngeal lymphatic system, *385
Lymphatic System, lymphangitis of retropharyngeal lymphatic system, *385
lymphatic drainage of paranasal sinuses, 416
Lymphogranuloma, Hodgkin's: See Hodgkin's Disease
Lymphoid Tissue: See also Adenoids; Lymphatic System; Nasopharynx; Tonsils; etc.
use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aerootitis), *4[illegible]

McCollum, W. D.: Cure of staphylococcic meningitis of otitic origin with penicillin, 514
McCrady, E., Jr.: Development of organ of Corti in relation to inception of hearing, *233
McGovern, F. H.: Prevention of secondary post-tonsillectomy hemorrhage with sulfathiazole gum, *196
MacMillan, A. S.: Acute and chronic osteomyelitis of frontal bone, 420
Acute otitis media with epidural abscess and meningitis, 418
Chronic suppurative otitis media and cerebellar abscess on left side, 419
Three cases of orbital cellulitis, 421
Malar Bone: See Zygoma
Malone, P. W.: Aviation deafness, *468
Mandible: See Jaws
Mastoid, Inflammation: See Mastoiditis
surgery; vitamin C-sulfonamide compounds in healing of wounds; use of sulfanilamide ascorbate in treatment of chronic suppuration of wound after radical mastoidectomy, *115
Mastoidectomy: See Mastoid, surgery
Mastoiditis: See also Otitis Media
and acute otitis media, *506
and chronic otitis media, *507
indications, procedures and results in surgical management; review of 33 cases, *249
de Mattos Barretto, P.: Total laryngectomy; simplified technics with use of special clamp which makes possible removal of larynx and preepiglottic space without opening pharynx, *275
Maxillary Bone: See Jaws
Maxillary Sinus: See also Sinuses, Nasal
adamantinoma of, *61
carcinoma of, 428
chronic suppurative maxillary sinusitis treated locally with penicillin by new method, *406
cysts, mucosal, 511
dental factors in maxillary sinusitis, *320
observations on, 64
two cases of osteomyelitis treated with penicillin; case 1, frontal; case 2, maxillary, 327
Meckel's Ganglion, modern view of neuralgia referable to Meckel's ganglion; report of cases showing relief of pain and sometimes arrest of development of ulcers of cornea by cocainization of ganglion, *29
Mediastinum, Emphysema: See Emphysema
Medicine, Military: See Military Medicine
Medin-Heine Disease: See Poliomyelitis
Ménière's Disease: See Vertigo, Aural
Meningitis, acute otitis media with epidural abscess and meningitis, 418
and abscess of brain, *508
and acute otogenous labyrinthitis, 415
cure of staphylococcic meningitis of otitic origin with penicillin, 514
due to post-traumatic cerebrospinal rhinorrhea, *206
otitic, *382
pneumococcic, complicated by Gradenigo syndrome; recovery after intensive treatment with penicillin and sulfadiazine, 150
Meningocele, otolaryngologic aspect of frontal meningocele; report of cases, *171
Meningococci: See under Meningitis

Metabolism, cardiovascular and metabolic study of stutterers and non-stutterers, 228
Metals, reconstruction of frontal bone with tantalum implant, following removal of osteoma, 67
removal of frontal osteoma and correction of defect with tantalum implant, *295
Michelsen, J.: Chronic suppurative otitis media and cerebellar abscess on left side, 419
Military Medicine: See also Aviation and Aviators; etc.
Army rehabilitation program for blind and deafened, 511
Army's plan for rehabilitation of deafened soldiers, 423
Miller, D.: Acute otitis media with epidural abscess and meningitis, 418
Chronic suppurative otitis media and cerebellar abscess on left side, 419
Miller, H. A.: Management of depressed nasal fractures, 516
Mineral Water: See under Water
Mobley, M. R.: Army's plan for rehabilitation of deafened soldiers, 423
Molloy, C. T.: Physical characteristics of some bone oscillators used with commercially available audiometers, *282
Moniliasis of external ear canal, 150
oral, in newborn infants, 511
Morphea: See Scleroderma
Mosher, W. F.: Adamantinoma of maxillary sinus, *61
Mouth, extramedullary plasma cell tumor of, *139
oral moniliasis in newborn infants, 511
tumors of lips and mouth, *143
Movements, diadochokinesis in stutterers and non-stutterers, 328
Mucous Membrane: See also under Mouth; Nose; etc.
effects of certain drugs on ciliary activity of mucous membrane of upper respiratory tract, 512
mucosal cysts of maxillary sinus, 511
Muscles, Paralysis: See Paralysis
Mysel, P.: Acute otitis media with epidural abscess and meningitis, 418
Three cases of orbital cellulitis, 421
Myxedema, post-thyroidectomy bilateral laryngeal paralysis complicated by myxedema and hypoparathyroidism, 427

Narcosis: See Anesthesia
Nares: See Nose
Nasal Sinuses: See Sinuses, Nasal
Nasopharynx, *413
carcinoma, 152
local use of powdered sulfathiazole in acute nasopharyngitis (common cold), 518
new nasopharyngeal radium applicator, *208
recognition and radium treatment of nasopharyngeal lymphoid tissue, 151
sulfadiazine in treatment of 200 cases of acute catarrhal nasopharyngitis, 510
tumors of, *144
use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aerotitis), *402
Neck, self-inflicted division of larynx and thyroid and division of trachea and esophagus, with recovery, 226
Neoplasms: See Tumors; and under names of organs and regions
Nerves: See also Neuralgia; Neuritis; Paralysis
facial, neurinoma of, *291
Paralysis: See under Paralysis
Recurrent: See Larynx, paralysis
Nervous System: See Brain; Cerebellum; Nerves; Reflex; etc.
Neubuerger, K. T.: Bronchial adenoma with metastasis, *487
Neuralgia, modern view of neuralgia referable to Meckel's ganglion; report of cases showing relief of pain and sometimes arrest of development of ulcers of cornea by cocainization of ganglion, *29
Neurinoma of facial nerve, *291
Neuritis, bilateral acoustic neuritis; review of literature and report of case, *261
Neurosurgery, neurosurgical point of view in Ménière's syndrome, 329
New, G. B.: Cystadenoma of larynx; report of 4 cases, *445
Tumors of nose and throat, *142
Newborn Infants: See Infants, newborn
Nicotinic Acid, Ménière's syndrome; results of treatment with nicotinic acid in vasoconstrictor group, *101
Noise, aviation deafness, *468
effects of noise and concussion on hearing, 326
effects on hearing of acoustic trauma in industry and war, 150
prevention and treatment of acoustic trauma, 326
prevention of traumatic deafness; further studies, *52
traumatic deafness in combat flyers, *374
Nose: See also Nasopharynx; Otorhinolaryngology; etc.
absorptive capacity of, *44
Accessory Sinuses: See Sinuses, Nasal
case showing partial deficient fusion of maxillary process with lateral nasal process on 1 side, 228
discharge; meningitis due to post-traumatic cerebrospinal rhinorrhea, *206
epiphora of nasal origin; simple method of treatment, *494
fissural cysts, *288
hemorrhage; hereditary hemorrhagic telangiectasia, 428
histopathology of nasal mucosa of older persons, *92
Inflammation: See Rhinitis
intracranial suppuration secondary to disease of nasal septum; survey of literature; report of cases and animal experiments, *1
local use of sulfonamides in nasal and sinus infection, 63
malignant tumors of nasal cavity; report of 8 cases in which frontoethmoid approach was employed, *396
management of depressed nasal fractures, 516
physiology of drainage of nasal mucus; drainage of accessory sinuses in man, 327
rhinosporidiosis, *203
septum; plastic repair of deviated septum associated with deflected tip, *433
significance of eosinophilia in rhinology, 416
surgical treatment of nasal obstruction; indications for plastic approach to septal deformity; details of plastic procedures, *198
tumors of nose and accessory sinuses, *142
tumors of nose and throat, *142
typical rhinoplastic operation, 68
Nystagmus: See also Cerebellum; Labyrinth; Reflex
vertical, produced by peripheral labyrinthine lesions, *160, 513

Occupations: See Industry
Oil, inhalation therapy using mineral waters and medicated oils, 512
Old Age, aging ear, *475
histopathology of nasal mucosa of older persons, *92
Oldberg, E.: Neurosurgical point of view in Ménière's syndrome, 329
Oncocytoma, tracheal, *218
Orbit, cellulitis in baby caused by acute osteomyelitis of maxilla, 416
cellulitis, 3 cases, 421
oculo-orbital involvement of sinuses, *305
Organ of Corti: See Labyrinth
Oropharynx: See Pharynx
Oscillators: See Hearing, tests
Osler's Disease: See Telangiectasia
Osteoma, reconstruction of frontal bone with tantalum implant, following removal of osteoma, 67
removal of frontal osteoma and correction of defect with tantalum implant, *295
Osteomyelitis, acute and chronic, of frontal bone, 420
and sinusitis, *309
orbital cellulitis in baby caused by acute osteomyelitis of maxilla, 416
spreading osteomyelitis of frontal bone treated with penicillin, 227
two cases treated with penicillin; case 1, frontal; case 2, maxillary, 327
Otitis Media: See also Mastoiditis
acute, and mastoiditis, *506
acute catarrhal, *507
acute suppurative; bacteriologic, clinical and therapeutic study in infancy, 150
acute, with epidural abscess and meningitis, 418
and abscess of brain, *384
and complications, *504
and facial paralysis, *384

Otitis Media—Continued
chronic, and mastoiditis, *507
chronic suppurative, and cerebellar abscess on left side, 419
complications and their treatment, *382
cure of staphylococcic meningitis of otitic origin with penicillin, 514
evaluation of some early otogenic complications, 150
facial paralysis associated with, 226
Gradenigo syndrome complicated by pneumococcic meningitis; recovery after intensive treatment with penicillin and sulfadiazine, 150
labyrinthitis due to Pneumococcus type III; histopathologic studies, *75
masking, *506
use of radon to prevent otitis media due to hyperplasia of lymphoid tissue and barotrauma (aerotitis), *402
Oto-Audion: See Hearing, tests
Otolaryngologic societies, directory of, 74, 156, 232, 332, 432, 522
Otolaryngology: See also Otorhinolaryngology
symposium on chemotherapy and biotherapy in otolaryngology, 229
Otology: See Otorhinolaryngology
Otorhinolaryngology, chemotherapy and biotherapy; their relation to prevention and treatment of ear, nose and throat, *17, 230
epistle on organs of hearing by Bartholomaeus Eustachius dedicated to Francis Alciatus, Bishop of Milan during reign of Pope Pius IV, *123
otolaryngologic aspect of frontal meningocele; report of cases, *171
otolaryngologic point of view in Ménière's syndrome, 329
vitamins and eye, ear, nose and throat; review of recent literature, 66
Otorrhea: See Ear, discharge
Oxygen: See Respiration
Ozena: See Rhinitis, atrophic

Palate, fissural cysts, *288
Palsy: See Paralysis
Paralysis: See also Larynx; Poliomyelitis; etc.
abducens; Gradenigo syndrome complicated by pneumococcic meningitis; recovery after intensive treatment with penicillin and sulfadiazine, 150
facial, and otitis media, *384
facial, associated with otitis media, 226
Infantile: See Poliomyelitis
Laryngeal: See Larynx, paralysis
pseudomembranous angina followed by partial pharyngeal paralysis, *164
Recurrent: See Larynx, paralysis
Parathyroid, post-thyroidectomy bilateral laryngeal paralysis complicated by myxedema and hypoparathyroidism, 427
Parietal Lobe: See Brain
Parotid Gland, primary tumors of Stensen's and Wharton's ducts, *175
Patulin, penicillin and tyrothricin therapy, *25
Penicillin: See also under Maxillary Sinus; Osteomyelitis; Thrombosis; etc.
tyrothricin and patulin therapy, *25
use of crude penicillin in media for isolation of Haemophilis influenzae from laryngeal cultures in obstructive laryngitis, 328
Peptic Ulcer of esophagus, *222
Perlman, H. B.: Mechanisms of ocular movement in man; influence of vestibular apparatus, *457
Pertussis: See Whooping Cough
Petrositis: See Temporal Bone
Petrosquamosal Sinus: See Temporal Bone
Petrous Bone: See Temporal Bone
Pharynx: See also Nasopharynx
esophagopharynx; special area of human pharynx, 510
muscular variation of pharyngoesophageal segment, 153
Paralysis: See under Paralysis
tumors of oropharynx and hypopharynx, *144
Phillips, E.: Thrombophlebitis of cavernous sinus following extraction of teeth; cure with penicillin and heparin, *497
Phonation: See Speech; Voice
Phonetics: See under Speech
Phonograph; phonographic scale for measurement of defective articulation, 228
Photomicrographs, fractures of temporal bone, *333
Plasmocytoma, extramedullary plasma cell tumor of mouth, *139
Plastic Surgery, management of depressed nasal fractures, 516
nasal septum; plastic repair of deviated septum associated with deflected tip, *433
surgical treatment of atrophic rhinitis, *451
surgical treatment of nasal obstruction; indications for plastic approach to septal deformity; details of plastic procedures, *198
typical rhinoplastic operation, 68
Platau, M.: Carcinoma of larynx; review of treatment and end results at Brooklyn Cancer Institute, *133
Pneumococci: See also under Meningitis
labyrinthitis due to Pneumococcus type III; histopathologic studies, *75
Pneumonia, lipid, 228
Pneumothorax and mediastinal emphysema following tracheotomy, 327
Poirier, G. H.: Acute and chronic osteomyelitis of frontal bone, 420
Poisons and Poisoning: See under names of substances, as Gas; etc.
Poliomyelitis, bulbar, laryngeal management of, 154
relationship of poliomyelitis and tonsillectomy, 511
